RE: Unauthorized use of UTSU Meeting Photos

Dear students,

There are some materials being circulated around University-Rosedale that have the images of some of our members taken at a Community Action Commission meeting of the University of Toronto Students’ Union. At this meeting, Karim Jivraj was present, albeit uninvited, with an additional member of his campaign.

Although students consented to having “candid” photos taken at the meeting, there was no consent given for these photos to be used in any campaign material for Karim Jivraj’s campaign.

As the Vice President External of the University of Toronto Students’ Union, I politely request that the campaign issue an apology to those students who are featured in the flyer, as well I request that you cease the distribution of these flyers to members of the community as these students do not feel they are properly represented.
